## 🎓 EDUCATION

**Zhejiang University**, Hangzhou, China

2020.09 – Present

*Undergraduate*

**Major in Computer Science and Technology**, College of Computer Science and Technology

**Minor in ITP** ( Intensive Training Program for Innovation and Entrepreneurship ), Chu Kochen Honors College

**GPA:** 3.92/4.00   **Credits:** 196 / 157

## 🎓 AWARDS

- **National Scholarship** issued by Ministry of Education of the People's Republic of China
- **First-class Scholarship** of Zhejiang University
- **Provincial Government Scholarship** of Zhejiang Province

## 🎓 EXPERIENCE

**Visiting Research Intern**

Santa Cruz, CA

*VLAA LAB, UC Santa Cruz*

2023.08-Present

- Under Supervision of Prof. Cihang Xie and Prof. Yuyin Zhou
- Worked on **Adversarial Attacks on LLMs & VLLMs**
- One paper in submission to **CVPR 2024**
- **xxx award** in **NeurIPS 2023** Trojan Detection Challenge-RedTeaming-Large subtrack(**Team leader**).

**Undergraduate Research Assistant**

Zhejiang

*Zhejiang University*

2023.01-Present

- Under Supervision of Prof. Yang Yang
- Worked on **Generalized Graph Pre-training**
- One paper preparing to submit to **ICML 2024**

**Participant of SRTP (Student Research Training Program)**

Zhejiang

*Zhejiang University*

2022.05-2022.12

- Under Supervision of Prof. Hongtao Lin
- Worked on **Optical Computing System Control**
- **top 1%** of the Zhejiang University

## 🎓 PUBLICATIONS

**Safety Evaluation Benchmark for Vision LLMs**

Haoqin Tu\*, Chenhang Cui\*, **Zijun Wang** \*, Yiyang Zhou, Bingchen Zhao, Junlin Han, Wangchunshu Zhou, Huaxiu Yao, Cihang Xie (\* represents equal contribution)

In submission to *IEEE / CVF Computer Vision and Pattern Recognition Conference 2024 (CVPR 2024)*

**TL;DR:** This work focuses on LLMs' potential in visual recognition. Different from prior studies, we shift our focus from evaluating standard performance to introducing a comprehensive safety evaluation suite, covering both OOD generalization and adversarial robustness.

**GRAPHGENT: Foundation Model for Graph Pre-training**

Yifei Sun, **Zijun Wang**, Xiao Feng, Chunping Wang, Lei CHEN, Jie Tang, Yang Yang,

Preparing to submit to *International Conference on Machine Learning 2023 (ICML 2024)*

**TL;DR:** We design the GRAPHGENT(Graph Generalized pre-Training), a foundation model for generalized graph pre-training that leverages patch encoder and patch aggregator to learn transferable knowledge from different graphs.
