🎓 EDUCATION

Zhejiang University, Hangzhou, China 2020.09 – Present

Undergraduate

Major in Computer Science and Technology, College of Computer Science and Technology

Minor in ITP (Intensive Training Program for Innovation and Entrepreneurship), Chu Kochen Honors College

GPA: 3.91/4.00 **Credits:** 204 / 172.5

🎓 AWARDS

- **National Scholarship** issued by Ministry of Education of the People's Republic of China
- **First-class Scholarship** of Zhejiang University
- **Provincial Government Scholarship** of Zhejiang Province

🎓 EXPERIENCE

Visiting Research Intern Santa Cruz, CA

VLAA LAB, UC Santa Cruz

2023.08-Present

- Under Supervision of Prof. Cihang Xie and Prof. Yuyin Zhou
- Worked on **Adversarial Attacks on LLMs & VLLMs**
- One paper in submission to **CVPR 2024**
- **Second Place** in Red Teaming LLM@NeurIPS 2023, Torjan Detection Challenge(**Team leader**).

Undergraduate Research Assistant Zhejiang

Zhejiang University

2023.01-Present

- Under Supervision of Prof. Yang Yang
- Worked on **Generalized Graph Pre-training**
- One paper preparing to submit to **ICML 2024**

Participant of SRTP (Student Research Training Program) Zhejiang

Zhejiang University

2022.05-2022.12

- Under Supervision of Prof. Hongtao Lin
- Worked on **Optical Computing System Control**
- **top 1%** of the Zhejiang University

🎓 PUBLICATIONS

Safety Evaluation Benchmark for Vision LLMs

Haoqin Tu*, Chenhang Cui*, **Zijun Wang** *, Yiyang Zhou, Bingchen Zhao, Junlin Han, Wangchunshu Zhou, Huaxiu Yao, Cihang Xie (* represents equal contribution)

In submission to *IEEE / CVF Computer Vision and Pattern Recognition Conference 2024 (CVPR 2024)*

TL;DR: This work focuses on the potential of VLLMs in visual reasoning. Different from prior studies, we shift our focus from evaluating standard performance to introducing a comprehensive safety evaluation suite, covering both out-of-distribution (OOD) generalization and adversarial robustness.

GRAPHGENT: Foundation Model for Graph Pre-training

Yifei Sun, **Zijun Wang**, Xiao Feng, Chunping Wang, Lei CHEN, Jie Tang, Yang Yang,

Preparing to submit to *International Conference on Machine Learning 2023 (ICML 2024)*

TL;DR: We design the GRAPHGENT(Graph Generalized pre-Training), a foundation model for generalized graph pre-training that leverages patch encoder and patch aggregator to learn transferable knowledge from different graphs.
